Professional Summary

BCA graduate with hands-on experience in full-stack web development. Proficient in **Python**, **PHP**, and **MySQL**. Strong foundation in backend systems, project deployment, and database design. Known for clean code practices, collaboration, and delivering impactful academic projects.

Key Highlights

- Built and deployed 4 academic projects using real-world stacks hosted on GitHub.
- Demonstrated full-stack capabilities with responsive UI, database management, and REST API familiarity.

Technical Skills

Languages: Python, PHP, HTML, CSS, SQL
Frameworks: REST APIs, CRUD Applications
OS: Windows, Basic Linux

Database: MySQL
Tools: Git, GitHub, VS Code, XAMPP

Projects

Online Library Management System – PHP + MySQL

Designed and developed a full-featured web portal for library automation. Reduced manual tracking efforts by 40%.

Hotel Management System – Python CLI

Terminal-based system for hotel operations — billing, room tracking, and reservation handling.

Student Result Management System – HTML/PHP

Created secure platform for managing and publishing student results online. Eliminated paper-based records.

Portfolio Website – HTML/CSS/JS

Live responsive site showcasing projects and certifications. Reached 100+ organic visits within a week.

Soft Skills & Languages

Communication • Teamwork • Problem Solving • Time Management • Adaptability
English • Hindi • Kannada • Telugu • Urdu
